

***Far From the Madding Crowd* Project: Analyzing Images**

Directions

Look at the following images, taken from the 2015 film. Answer the following questions about each image in at least one paragraph per picture:

- What information does the director reveal about the character(s) in the image?
- How is this information shown to the watcher? (character placement, colors, lighting surroundings, dress, etc. – list anything you notice)
- How does this image relate to what you know about the character(s), or themes from your reading of the novel? Does the image support what you learned about the character(s) from the novel? Or does it seem to contradict this? Why?
